GERBING CAMELLIA NURSERY

RALPH E. MAY, Owner

FERNANDINA, FLORIDA

Fine Camellias Our Specialty

OUR SLOGAN—SERVICE AND QUALITY

MRS. CHARLES COBB

VITTORIA EMANUELE

To Our Customers

From November 1st to April 1st our Nursery is open for business every day including Saturday, Sunday. We are closed only on Thanksgiving and Christmas day.

To our customers for Fall sales we offer a complete stock of quality plants in Camellias, Azaleas, Sasanquas and general Nursery stock for the wholesale and retail trade.

To the wholesale trade:

Rooted cuttings, lining out stock, also plants running in size 12-18" to 6' specimen in Camellias, Azaleas and Sasanquas.

Own root can Camellias 12" to 18" leader prices to the wholesale trade when purchased in quantity.

All grafted Camellias will be balled and burlapped, will have no grafts in cans as I do not graft on pencil size or lining out understock.

Deliveries made when purchased in truck load lots.

Our prices in line with other wholesale Nurseries to the wholesale trade.

We will be glad to have you visit the nurseries at anytime during the day.

Beautiful Camellias blooming from November until March.

☆ ☆ ☆

The location of our nurseries in Fernandina, Fla., seems to be perfect for growing nursery stock, we are just 10 miles south of the Georgia line on the new famous Coastal Buccaneer Trail which will take you on an ocean drive to Daytona Beach, Fla., going South, make left turn at Yulee, Fla., off Route 17.

There is no admission charge to visit our nursery.

Camellia Literature by G. G. Gerbing

The Book Camellias Published by Mr. Gerbing in 1943, contains 108 four color plates, Cultural data on Grafting, Propagation by Cuttings, Propagation by Root Sprouts, Insect and disease control. Varieties suitable for cut flowers, greenhouse culture, etc., nomenclature clarified, a list of synonyms of Camellias listing duplication of varieties. Prepaid \$15.00.

A supplement to the Book Camellias Published by Mr. Gerbing in 1945. A loose leaf binder with 37 four color plates 8"x12" with descriptive data of each variety shown. This Binder is a continuation of the color plates of Camellias and does not replace the bound Book Camellias. Prepaid \$10.00. All books are to be ordered direct from G. G. Gerbing, Fernandina, Florida.

What You Should Not Do With Azaleas and Camellias

Do not spray plants in winter with Oil Emulsion.

Do not place soil or muck on the surface of the ground around Azaleas or Camellias after they have been planted.

Do not permit your plants to remain dry at the roots when cold weather is reported.

Do not allow heavy cloth to rest directly on the plants in freezing weather. (We do not cover any of our plants at any time).

Do not over-fertilize your plants. (They are naturally slow growers and too much fertilizer will weaken them). Do not remove or loosen the burlap on Camellias.

Do not plant too deep. Do not lift the plant by the trunk.

Do not plant them in poor unsuitable soil, they will not give satisfactory results.

Important Information **INSECT CONTROL**

RED SPIDER. *Symptoms:* The foliage begins to turn brown. Dust the underside of the leaves with S.A.T. early in the morning before the dew dries up. Formula—8 lbs. Sulphur Dust, 1½ lbs. Arsenate of Lead, 2 lbs. Tobacco Dust.

WORMS, GRASSHOPPERS and BLUE-GREEN FLEA BEETLE. *Symptoms:* These insects chew holes in Camellia foliage. Spray with Arsenate of Lead in spring before new growth starts. Continue as needed. Formula—1½ lbs. to 10 gals. of water.

SCALE INFESTATION. *Symptoms:* Yellow spots appear on foliage. Underside of foliage should be sprayed with Oil Emulsion Spray. Formula—1 qt. of Volk to 12 gals. of water. Spray in April, May or June. (Never spray in winter; freezing temperatures injure plants which have been sprayed at that time.)

APHIDS. *Symptoms:* Small black-brown insects attack tender foliage. Spray with Black-Leaf 40 as needed. Formula—1 tablespoonful to a gal. of water.

PHOMOPSIS BLIGHT (Fungus Disease). Possibly most detrimental of Camellia diseases. *Symptoms:* Small branchlets shrivel up in spring after new growth develops to about 4 to 8 inches, sometimes the entire top of a plant will shrivel, sometimes the roots are diseased and it is not apparent until the entire plant is dead. Hence, it is advisable to spray all Camellias and Azaleas with Bordeaux Mixture each spring; regardless of weather Phomopsis Blight is always present. Formula—1½ lbs. Bordeaux Mixture (4-4-50) to 10 gals. of water. Spray sufficient to wet all the branches and the trunk, in March, April or May. (Cold-weather precautions—water all plants at the roots before a freeze.)

Post Office—Fernandina, Fla. Shipping Point—Express, Freight and Motor Truck—Fernandina, Fla. Boat shipments out of Jacksonville, Fla. Day Phone 4304, Night Phone 4878.

Display gardens and nursery located at Amelia City, six miles south of Fernandina on the Amelia City road.

TERMS OF BUSINESS—We do business strictly on a cash basis. Please enclose check with all orders for immediate shipment. When booking orders to be shipped later, send 25 per cent of total amount with your order—the balance due at time of shipment. If credit is desired, send references, giving us time to investigate and approve before shipments are made.

SUBSTITUTION—We will not substitute unless customer so specifies.

OUR 20th YEAR OF QUALITY AND SERVICE—We are Camellia and Azalea specialists, devoting all of our time to growing, propagating and shipping high-grade plants. We are proud of the fine vigorous stock that we have the pleasure of offering to the public. We are always careful to send out only true to name stock.

GRADING OF STOCK—Camellias are graded as to height—18 to 24 inches designates a plant 1½ to 2 feet tall.

Values are governed by the character of individual specimens. A slender plant 3 to 4 feet tall is not worth as much as one 2 to 3 feet tall of bushy habit. Bushy Camellias produce many more buds than slender, loose-growing plants.

Prices in this Catalog cancel all previous quotations and are subject to change without notice.

Orders are accepted in rotation as received.

SELLING AND SHIPPING SEASON—Shipments are made between November 1 and April 1.

GUARANTEE—We guarantee Camellias to be well rooted healthy scale free plants, properly packed and shipped. As we have no control over growing conditions after plants have left the nursery, we cannot guarantee Camellias to live—that is entirely up to the knowledge and skill of the purchaser.

TRANSPORTATION—If no instructions are given, we will use our best judgment in selecting best method of shipments. We make no charge for delivery to railroad station, but our responsibility ceases when goods are turned over to carrier, and risk and cost of transportation belong to purchaser. If crates are damaged or broken the Express Company is liable, place your claim with them immediately and notify us, we will give you all the assistance that we can.

Will have rooted cuttings in Camellias and Azaleas, also Azalea liners, for the wholesale trade only. Write for prices. We give a discount to the wholesale trade, in truck loads picked up at the nursery.

White Gold Metal Camellias

Dante. An imbricated pure white form with golden stamens at the base of each petal.—B.

***Haku-rakuten.** An extraordinary 5-inch white blossom, loosely formed, with a few stamens intermingled with the petals.—A—B—C—D—E—F.

Imura. Beautiful white semi-double we have seen.—A—B—C—D.

***Lotus, Sode Gutchie.** The largest of all Camellias, measuring 6 inches or more in diameter, with a large cluster of stamens in the center.—C—D—E.

***Perfection Alba.** We consider this Camellia one of the finest double whites for late cut-flowers because it is a profuse bloomer.—C—D—E.

***Frizzle White.** Semi-double, medium to large, wavy pure white flower, intermixed with many yellow stamens.—A—B—C—D—E.

***White Empress.** A very large semi-double flower of pure white in color.—A—B—C—D—E—F.

***White Giant.** Very large semi-double pure white flower, often measures over 5 inches in diameter.—A—B—C—D—E—F.

***Victory White.** Flower is semi-double, of the peony type, measuring 4-5 inches in diameter. Pure white in color.—A—B—C—D—E—F.

Victory Maid. Medium sized flowers, some full double, imbricated, some are semi-double with yellow stamens.—B—C—D.

***White Queen.** The petals are pure white, somewhat small and pointed at the tips.—A—B—C—D—E—F.

***White King.** The color is snowy-white with numerous yellow stamens at the center.—A—B—C—D—E—F.

***Liberty Bell.** It bears a pure white, semi-peony formed flower measuring 4-5 inches in diameter.—D—F—E.

***Robert Norton.**—D—F.

***Royal White.** Very late bloomer. Pure white in color.—D—F.

***Haku Tsuru (14B and White Crane).** Large excellent white resembling Vittorio Emanuele in size and shape.—A—B—C—D—E—F.

K. Sawada (U. S. Patent No. 431). The flowers are of pure white, very double, and fully imbricated.—B—C—D—E—F.

This Camellia is sold under contract from patentee.

***Elisabeth Boardman.** Stamens intermingled, large rounded light green foliage, flowering at mid-season, a good hardy white Camellia. B—C—D—E—F.

***Morning Glow.** Imbricated, porcelain white, petals changing to light cream yellow at petal base. Flower 4" to 5" in diameter.—A—B—C—D—E—F.

***Alba Fimbriata (Middletoni, No. 26).** This is the true fibriated Alba Plena, a pure white, formal type of flower which measures 4 to 5 inches in diameter.—B—C.

***September Morn (Yohei-Haku).** White. Large, loose double with central petals interspersed with grouped stamens and petaloids.—A—B—C—D—E—F.

***Pax.** (Snow Doll; Yuki Daruma; White Laurel Leaf) Pure White. Large, formal, imbricated, flat double.—B—C.

***Jenny Jones (\$100).** This large semi-double cup-shaped white flower should become one of the most popular of its type.—B—C—D.

***Shiro-Botan.** Large, white. Good grower. Medium-sized, light green foliage. A very good white.—D—E—F.

***Lady of Lourdes.** Another great Camellia. Similar in size and shape to Marchioness of Exeter but is white in color. 5 to 6 inches in diameter and 1 to 2 inches thick.—B—C—D.

***Margarete Hetrich.** A large full double white.—B—C—D.

***Pride of Descanso.** This fine California variety is a very large semi-double to loose peony white flower. Very lovely.—B—C—D—E—F.

***Paul Howard's White (Late Alba Plena).** A large imbricated double.—C—D—E.

Pink Gold Metal Camellias

***Bessie McArthur.** (One of our hybrids.) A large, semi-double, clear pink variety with three or four layers of very large petals and prominent stamens intermingled with small petaloids.—B—C—D.

Christine Lee. A lovely semi-double pink Camellia from the gardens of Dr. W. G. Lee. The flowers measure 4 to 6 inches across, with showy, prominent stamens.—A—B—C. \$6.00.

***Alice Stokes.** Medium size, light pink, full double flowers, very new.—B—C.

Thelma Dale. A silver pink sport of Mrs. Baldwin Wood. Somewhat larger.—B—C—D—E.

David Gerbing. (Our seedling.) Lovely pink, double rosebud form with 3 to 4-inch bloom. The opening color and form resembles that of a Pink Radiance rose.—B—C.

Empress. An immense, semi-double deep pink flower with golden stamens in the center.—A—B—C—D.

***Rosea Superba.** A very large, double, deep pink flower of the

Mathotiana Rubra type outstanding for its free-flowering habit.—A—B—C—D—E—F.

Eleanor Haygood. Its rose form flowers upon developing fully show a few short stamens when completely open.—B.

***Magnoliaeflora.** This lovely semi-double pale pink Camellia is in great demand, flowering in mid-season.—A—B—C—D—E—F.

***Crepe Rosette (Middletoni, No. 6).** Measuring 4½ inches in diameter, the deep pink semi-double blooms have three rows of outer petals which are twisted and intermingled with the stamens.—B—C.

***Lady Hume's Blush.** Best described as shell-pink to white.—B—C.

***Angel's Blush.** Small blush pink flower with about 3 or 4 small stamens showing in center. Very dainty.—B—C.

***Dr. Tinsley (M).** Large, semi-double blush color, of Empress shape. Very good.—A—B—C—D—E.

***C. M. Wilson (M).** Flesh pink sport of Chandleri Elegance. Silvery pink fades into blush and white towards the edges of the petals. \$15.00.—A—B—C—D—E.

Debutante (Sara C. Hastié). This beautiful light pink peony-like Camellia measures 3½ to 4 inches in diameter.—A—B—C—D.

Marchioness of Exeter. The deep pink peony-like flowers measure 4 to 5 inches across.—A—B—C.

Rev. John Bennett. A very large, semi-double, deep rose-pink bloom with prominent stamens.—A—B—C—D.

***Lady Charlotte.** A large clear pale pink with prominent stamens and three rows of waved petals veined with white.—B—C.

***Mrs. Freeman Weiss.** Is a semi-double pink of loose construction with wavy petals and petaloids mixed with its stamens.—B—C—D.

Sweetiana Vera. Large, peony-like flesh pink flowers streaked with rose.—A—B.

***Mrs. K. Sawada (U. S. Patent No. 481).**—B—C—D.

The flower is full double. Color is delicate pink, shaded on white.

***Daikagura.** Large, full, peony-like deep pink flowers.—A—B—C—D—E—F.

***Bessie Morse Bellingrath.** Flowers semi-double, white with faint blush, and color is more delicate than Magnoliaeflora.—B—C—D—E—F.

***Rose Mallow No. 126.** Very large semi-double flower of mallow type.—B—C—D.

***General George Patton.** Bright pink. Large, rose form double. A—B—C—D—E.

***Smiling Beauty.** Delicate pink which is slightly deeper in color than Magnoliaeflora.—A—B—C—D.

Rose Dawn. The large, rose-pink flowers are very beautiful and very double, similar in form and shape to Alba Plena.—A—B—C—D—E.

***Casa Blanca.** Medium rose-pink; formal; double.—B—C—D.

***William Rosa.** A seedling of Rev. John Bennett. Salmon pink without the white which often shows in the parent plant. A much thicker flower, having an extra row of petals, but with the same formation as Rev. John Bennett.—B—C—D—E.

***Lila Rosa.** Deep clear pink flower with formation similar to Marchioness of Exeter. A variable flower sometimes showing many petaloids.—B—C—D—E—F.

***Clara Greene.** Very large, peony-type flower. Golden stamens among petals and petaloids. Color deep rose.—B—C.

High Hat. Pale Pink. Large, double peony with cluster of small petaloids in center. Slow, compact, upright growth with large, serrated dull green foliage. Pink sport of Daikagura.—A—B—C—D—E.

***Uncle Sam.** (Rosalie, Henry Barnett). Variable Rose sometimes spotted White. Large, high-centered, symmetrical double with broad petals.—B—C.

***Mrs. Josephine Hearn.** Rose-Pink. Large, fluffy double with curled petals.—B—C—D.

***Sieur de Bienville.** Large DEEP ROSE PINK throughout; very massive bloom, first six or eight rows of petals imbricated and turned down; inner rows turned up and cupped around center.—B—C—D.

***Mollie Moore Davis.** Very large DEEP ROSE PINK, lightly washed and veined ROSE COLOR; full double; outer rows of petals loosely imbricated; inner petals interspersed with small groups of WHITE stamens and petaloids.—A—B—C—D—E—F.

***Emily Brown (Syn.: Hishi-Haraito).** Small MALLOW PINK, full double; petals long and narrow; central group of petaloids shading from LA FRANCE PINK to WHITE. Mid-season.—B—C—D.

Gov. Richard W. Leche. Large DEEP ROSE PINK, lightly lined ROSE COLOR; semi-double; petals long and narrow, upstanding, cupped around a compact group of long stamens. Late.—A—B—C.

***Adah Pearl.** Flowers are 4 to 5½ inches in diameter, semi-double, rose-pink, showing some golden stamens. Late blooming season.—B—C.

***Minnie Maddern Fiske.** Very large ROSE Pink throughout, color very uniform from base to tip of petal; semi-double.—A—B—C.

***Virgin's Blush.** Large WHITE, delicately and completely washed with the faintest PINK; full double; petals loosely but regular arranged.—A—B—C—D—E—F.

***Galilee, F. N. (MS).** Semi-double, pink with salmon undertone. Petals stand erect. Stamens in center.—B—C—D.

***Mary Charlotte.** A medium to large flower, light pink in color with a full anemone form.—A—B—C—D—E—F.

***Mrs. Howard Asper (S-194).** New Introduction. This beautiful new variety looks like a huge pink lotus. Grafted.—B—C—D.

***Paulette Goddard.** A very fine large semi-double pink. New and rare and considered one of the best.—B—C—D—E—F.

Red Gold Medal Camellias

Dr. W. G. Lee. An extraordinary dark velvet red, semi-double flower from the garden of Dr. W. G. Lee. The blooms average 3 to 4 inches in diameter with golden stamens showing in the center.

H. A. Downing. A very large, semi-double flower of deep rosy red with stamens showing among the petals. Dark green foliage.

Emperor of Russia. This brilliantly colored red flower is peony-like in form with golden stamens among the inner twisted petals.

C. M. Hovey. A full, double Dahlia-flowered, dark red form which makes a choice cut-flower.

Lady Mary Cromartie. This is an unusually large cup-shaped peony-like flower of deepest red.

***Campbell Ashley (Middletoni, No. 13).** A loosely formed, peony-type flower of deepest red, with petals of crepe-like texture.

*GRAFTS

to late. In cold weather the color is deep velvety red. In mild weather it is rose red. Free flowering.—A—B—C.

***Adolph Audusson.** Large red to red and white spotted flowers opening in mid-season.—A—B—C—D—E—F.

***Aunt Jettie.** It is thought by some to be a red Sport of the Gov. Mouton.—A—B—C—D—E.

***Mrs. Charles Cobb.** The color is darkest red to coppery bronze.—A—B—C—D.

***Glen No. 40.** This fine double red found its way to Florida through the Glen Saint Mary Nursery at Glen Saint Mary, Fla., there labeled Glen No. 40, which title it carries today.—A—B—C—D—E.

***Emperor.** Its very large flowers open in December. Free flowering. Foliage deep green heavily ribbed.—A—B—C.

***Firegold. (Te Deum, Dr. Sheppard, Pasha of Persia).** Large fire-red, semi-double to peony form, 5 to 6-inch bloom.—A—B—C—D.

***Goshoguruma.** Good-sized, semi-double, deep red flowers with yellow anthers, making a most attractive color combination.—A—B—C—D.

***St. Andre.** Semi-double, generally loose peony. Very large, 5-6 inches across. Beautiful color of crimson-carmine; blooms late.—A—B—C—D—E—F.

***Letitia Schrader.** Large deep red Medallion shaped flower; deep center graduating to long guard petals with small cluster of bright yellow stamens showing just above small petals in center.—B—C—D—E—F.

***Imperator (French Variety).** Very large peony form, garnet red flowers. True French variety—not to be confused with other Emperor.—A—B—C—D—E—F.

***Flame.** A large, semi-double brilliant red. Upright grower and very hardy.—B—C—D—E.

***California (Dufree Road).** Light Rose-Red. Very large, loose double with broad, thick petals.—B—C—D.

***Black Dragon.** Flowers are very large and very dark red and resemble in color Mrs. Charles Cobb and in form of the Victor Emmanuel.—A—B—C—D—E—F.

***Pearl Harbor.** An enormous late blooming rose red semi-double.—C—D—E.

***Kuro-Tsubaki.** Small DARK WINE RED seeming almost BLACK; semi-double with prominent RED stamens, yellow-tipped.—C—D—E.

***Conflagration.** A large fiery red semi-double, petals somewhat irregular and waved, with petaloids enclosed by a ring of prominent yellow stamens.—B—C.

***Lawrence Walker.** Large loose peony red, hemispherical in shape with stamens.—A—B—C—D—E.

***General Dwight Eisenhower.** Blood-red in color and a full peony, very thick in form and 4½ inches in diameter.—B—C—D.

***Edwin H. Folk. (MS to L).** Semi-double, bright red. Very large, loose formation, showing stamens.—A—B—C—D—E.

***Ville De Nantes Red.** This large red semi-double to loose peony form blossom has imbricated petals on the edges.—A—B—C—D—E—F.

Variegated Gold Medal Camellias

***Ville DeNantes.** Flowers are deep red, heavily veined and marbled with white. Average size of the flower is 4½ to 6 inches.—A—B—C—D—E—F.

***Mme. Chiang Kai-shek.** Fast growing Camellia with large dark green foliage.—B—C—D.

***Aspacea. (Great Eastern, Bolens No. 9).** The very peony-form 4-inch flowers open mid-season to late. Resembles in form the Emperor of Russia.—A—B—C—D.

***Colletti Maculata.** A blood-red, peony-like flower, marbled with snow-white; large outer guard petals.—B—E—F.

***Contessa Lavinia Maggi (Laurel Leaf).** A very large, double pink flower, spotted with white.—A—B—C—D.

***Nagaska.** Semi-double rose-pink flowers spotted with white. Round, dark green foliage. Slow in growth; late.—A—B—C.

***Otome Variegated.** When opening the flower has the form of a rosebud. The shell-pink 4-inch blooms are suffused and striped with deep rose-pink.—A—B—C.

***Paeoniflora.** An extremely large, white, peony-type bloom speckled with pink—sometimes they appear solid pink and some half pink and half white.—A—B—C—D.

***Donkelaari (Middletoni, No. 15).** We consider this to be the finest strain of the true Donkelaari in America. The 6-inch deep red flowers are spotted and marbled with white.—A—B—C—D—E—F.

***Catherine Cathcart.** Double pink blossoms marbled with white, measuring 3½ to 4 inches across, and noted for their symmetrical form.—A—B—C.

***Mrs. Baldwin Wood.** Large semi-double to double, rose type. White striped with pink.—A—B—C—D—E.

***Jessica Variegated. (Dorothy M).** Semi-double large red marbled white. Hibiscus type. Vigorous upright grower.—A—B—C.

Kurume Azaleas

Cherry Blossom. The delightful cherry-blossom-pink hose-in-hose type flowers are borne on plants of tall, open growth with large, round, dull green foliage. Very late.

Coral Bells. The most popular and generally considered the best pink Kurume with small, deep pink hose-in-hose flowers borne in great profusion. Tall, vigorous, fast growth.

Double Apple Blossom. Apple-blossom-pink hose-in-hose type flowers borne in profusion on slow-growing, bushy plants. Late.

Hortensia. Delicate pink blooms of large size in the hose-in-hose form. Low, bushy growth.

Pink Pearl. Pale pink, fringed blossoms of the hose-in-hose type which fade to white toward the center. Very profuse in their bloom, the tall, rapid-growing plants have light green, glossy foliage. Early.

Christmas Cheer. Brilliant red blooms of the hose-in-hose type are borne on slow-growing, wide-spreading plants. Mid-season.

Hexe. Large, deep red blooms of the hose-in-hose type. Bushy, dwarf plants. Mid-season to late.

Hinodegiri. Single, deep red flowers of large size which are borne in great profusion on low, compact, bushy plants.

Salmon Beauty. Deep salmon blooms of the hose-in-hose type, borne in great profusion on bushy plants.

WHITE VARIETY

Snow. Of medium growth, the bushy plants produce pure white hose-in-hose type flowers and deep green, glossy foliage. Mid-season.

Double Pink Macrantha. The double deep pink flowers appear on tall, vigorous-growing plants and the narrow deep green foliage is unusually hardy. May.

Indica Azaleas

Fielders White. A slow-growing bushy type with large single white flowers. It is generally considered the best white Azalea. Mid-season.

Elegans. Clear pink flowers appear early on tall fast growing plants with light green foliage.

RED VARIETIES

Brilliant. Low in its habit of growth, the medium-sized flowers are deep rosy red and the foliage is dark green. Early.

Elegans Superba (Pride of Mobile). A low-growing, bushy plant with watermelon-red flowers of large size and dull green leaves. Mid-season.

Pride of Dorking. Large late flowering deep red profuse bloomer. Fairly hardy. Growth, slow wide compact.

SALMON VARIETIES

Duc de Rohan. Clear salmon flowers of medium size, narrow light green foliage, and low, wide-spreading, bushy growth characterize this variety. Early.

Lawsal. The finest salmon-colored Azalea known for its depth of color, its light green foliage, and its tall, open growth. Late.

Pride of Summerville. The flowers of this vigorous-growing, tall plant are larger than Lawsal.

Georg Franc. Large early salmon with deep rose throat, profuse bloomer. Low flat growth. Quite hardy.

ORANGE RED VARIETIES

President Clay. A very hardy variety with dull green leaves and deep orange-red flowers. Fast-growing, tall, bushy growth.

Sublanceolata. Unusually large deep orange blooms and large, glossy foliage distinguish this slow-growing bushy type. Late.

LAVENDER VARIETY

Formosa. A most satisfactory variety known for its hardiness, with large lavender blooms, large green foliage and tall, bushy growth.

George Lindley Tabor. The large flowers are described as blush-pink to white, slightly speckled with or striped with lavender.
